Source of light: LED

Product size: 1200mm(47.2")

Light bulb base code: E26

Maximum wattage per bulb: 7W

Safety Rules

- Never use a power source that exceeds the product's rated voltage range.
- Never install the lighting on a tilted or unstable wall surface.
- Never install the lighting in a place that is above a strong source of heat or moisture. (Do not install it above a stove, gas supply, exhaust pipe, or similar condition to avoid damage).
- Never install the lighting with other appliances in series circuits or parallel circuits with a dimmer.
- Have someone professional in electric work do the checking and repairing for the lighting. (Danger is likely to occur for non-experts).
- When the lighting shows anomalies, cut the power quickly and contact the seller(corresponding model No. is needed for repairs, which can be referred to on the main lighting body).
- If the exterior flexible-cable or soft wire is damaged, please seek a replacement from the manufacturer, service agent, or someone equally eligible in case of danger.

Installation Steps

1. Insert the plastic anchor into the ceiling surface, and align the screw to the plastic anchor and tighten the hanging board to the surface.
2. lift the light and connect the wire, then align the hole on the lighting's box to the hole on the hanging board, and tighten them with screw.
3. Turn on the switch to let the light emitted, finishing the installation.

Maintenance & Care

To keep the product functioning safely and efficiently, please clean and check the light periodically(once every 6 months); To clean the light, please shut off the power source and clean it with a piece of soft cloth. Avoid using any other detergents, which can cause damage or discoloration.
